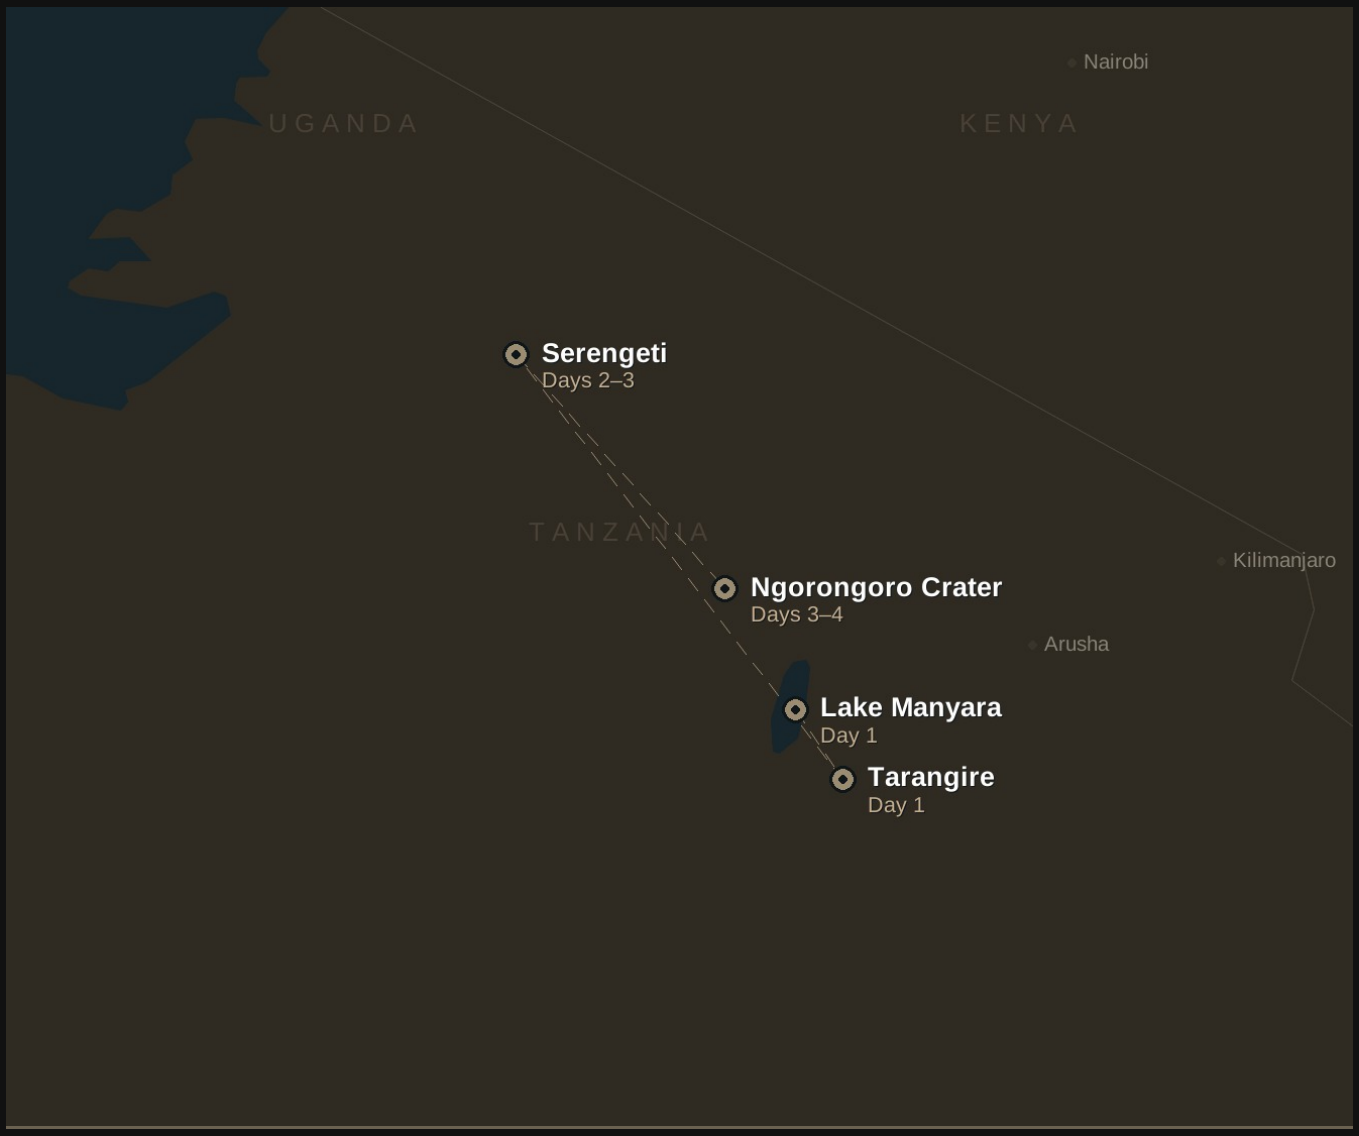
Your route for this journey



- **Lake Manyara** Day 1
- **Tarangire** Day 1
- **Serengeti** Days 2–3
- **Ngorongoro Crater** Days 3–4

Lake Manyara / Tarangire National Park

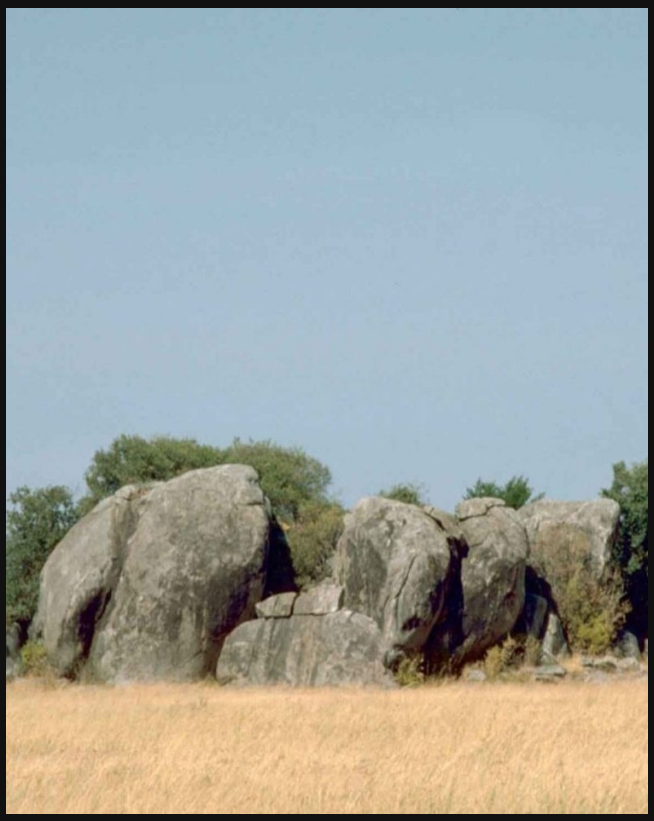
Our guide will pick you up at the airport / accommodation and drive you to Lake Manyara or Tarangire National Park (recommended from June to October). Tarangire National Park is renowned for its diverse scenery with nine distinct vegetation zones. The landscape is abounding in Ancient Baobas, making you feel belittled when staying next to them. And the river is full of wildlife, allowing you to spot the Big 5! It's also in Tarangire that you can find the highest concentration of elephants in the whole country, You will have the opportuniyy to observe their behaviors and interactions between families. Lake Manyara National Park is truly breathtaking, with its luscious acacia forest, giant figs, and mahogany trees. Here you can find plenty of wildlife, including giraffes, elephants, impalas and a large number of buffaloes. The lake is alfo the habitat for lots of hippos! The most distinctive characteristics of this national park are the tree.climbing lions, flamingos in the lakeshore, as well as the Ground Hornbill and the Crested Eagle. In the afternoon, transfer to the camp for dinner.

Lake Manyara

Serengeti National Park

After an early breakfast, depart towards the most famous National park in the World, the Serengeti. The driving itself, although long, is spectacular. You will drive up the crater highlands, making a quick stop at the rim for an out of this world view of Ngorongoro Crater. This will be an unforgettable moment for anyone seeing it for the first time. As you progress well into the Serengeti, you will see why the name means, in local language, "endless plains". The park has 6,900 sq. mile (18,000 sq. km) and for most of it, the plains will stretch to the horizon defying your senses and perception of distances. It is the home of the Great Migration and to 2 million wildebeests, hundreds of thousands of zebras and all kinds of antelopes including the abundant impalas and Thomson's gazelles. As for Big Cats and large predators, it's the place of choice to look out for lions, cheetahs, leopards, hyenas, with many television scenes like the famous river crossings having been filmed in this park. Smaller animals like foxes, mongoose, honey badgers, jackals, monkeys, baboons, rock hyrax and african hares, together with more than 500 species of birds, also inhabit this park. On the way to the park you will have the option to stop for a visit to Olduvai Gorge, a famous place where Dr. Louis and Mary Leakey discovered the remains of the first man who walked on Earth. This tour includes a short lecture describing the archeological digs and geologic characteristics of the gorge, as well as a visit to their museum.

Serengeti



Serengeti to Ngorongoro

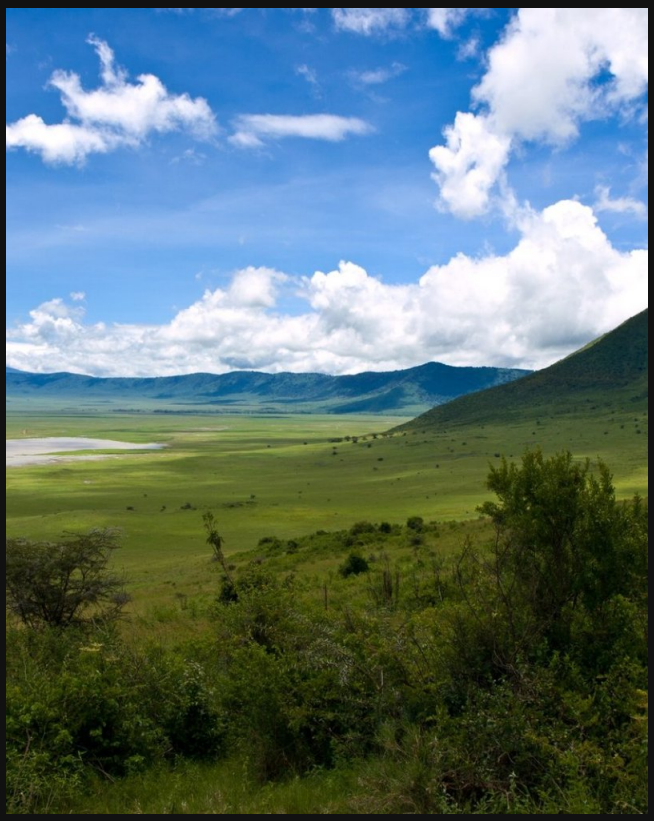
On this day we suggest a very early wake up in order to do an early morning game drive (when the animals are more active) and see one of the best sunrises you'll ever witness. It's really one of the most beautiful experiences to have. After the game drive, we return to the camp for a rewarding brunch and then we'll proceed to Ngorongoro, the 8th wonder of the Natural World. The crater spreads for 102 sq. miles and has 2,000 ft high walls, making it virtually a Noah's ark and inhabiting almost every species of wildlife that is indigenous to East Africa. It's one of the very rare locations in the whole continent where you can witness the black Rhino. The concentration of African wildlife is the greatest in the continent. The crater has a river, several swamps, a soda lake with a great concentration of flamingos, a forest and open plains. It's also famous for its elephants which are the largest in the world and have huge tusks. This is due to the rich mineral content of the volcanic soil and its grasses. Ngorongoro Crater is truly a Wonder of the Natural World. You will reach Ngorongoro in time for a sundowner.

Ngorongoro Crater

Day 4

Ngorongoro Crater

We will start the day very early and descend into the crater floor for an incredible morning of wildlife in one of the most stunning places on Earth. After the game drive, there will be time for a picnic lunch near the beautiful hippo Lake. After lunch, we will have time for a short game drive and then ascend the crater and exit Ngorongoro Conservation Area towards Arusha. We expect to be back in Arusha around 5pm although we are flexible in case there is a flight to catch or another situation.



What's included in your journey

INCLUDED IN THIS PACKAGE

- All park and conservation fees (including Ngorongoro Crater service)
- 4WD vehicle with safari pop-up roof, unlimited mileage and guide/driver
- High End Binoculars

Soul of Tanzania

Soul of Tanzania is shaped by decades of safari expertise and an unwavering commitment to flexibility, dedication and personal service.

A safari should not be a list of animals to tick off. There is beauty in the small details and there are rewards to collect when you are patient.

This will not be just a journey through East Africa, but an invitation to truly feel it.
